EDUCATION

Bachelor of Technology, MANIT BHOPAL

Expected 2021-2025

Computer Science Engineering **CGPA: 7.0**

Higher Secondary School, G.V.I.C Prayagraj

2019 - 2020

Percentage: 75.6

High School, G.V.I.C Prayagraj

2017 - 2018

Percentage: 83.67

SKILLS

Languages C/C++, HTML, CSS, JavaScript, Python

Expertise Machine Learning, Web Development

Others DBMS, SQL, Git and Github

Soft Skill Collaborative, Leadership, Adaptive

EXPERIENCE

Assistant Solution Engineer Intern – Walkover Web Solutions Pvt. Ltd.

June 2025 – Present

Working with the ViaSocket team to build logic-based automation flows and cross-platform mobile apps using React Native. Assisting in API integrations, frontend development, and improving typing and communication through regular feedback.

PROJECTS

[Comprehensive User-Friendly interface for Car Repair Website](#)

[Link](#)

Developed and implemented a user-friendly frontend interface for a car repair service application, enhancing customer experience and service efficiency.

Tools and TechStack : **HTML, CSS, JavaScript, VS Code**

Book-Recommender-System

[Link](#)

Built a Book Recommender System using collaborative filtering and content-based algorithms to suggest books based on user ratings and preferences. Implemented using Python and optimized for large datasets.

Tools and TechStack : **ML Algorithms, Python, Jupyter Notebook**

Next Word pridiction Developed a next-word prediction model using natural language processing techniques to enhance text completion accuracy across diverse contexts.

Tools and TechStack : **ML Algorithms, Python, NLP, Jupyter Notebook**

CERTIFICATIONS

Participated in Workshop of Data Structures and Algorithms @ SCEECS'23

[Certificate](#)

Certification by HackerRank in Problem Solving (Basic)

[Certificate](#)

Web Development Course Completion Certificate

[Certificate](#)

COURSEWORK

Data Structures and Algorithms , Database Management System, SQL , Object Oriented Programming in C++ , Software Engineering, Computer Networks

ACHIVEMENT

1. Led a team to successfully complete a project, improving my leadership, time management, and communication skills.
2. Achieved the Certification in Problem Solving by Hackerrank.
3. Sovled 200+ Problems of Data Structures and Algorithms across platforms.
4. Shortlisted for Upskilling Course by Gift Abled in Data Science.
